State Management: Hooks & ContextAPI, Redux, Tan Stack Query(react-query)
APIs: REST APIs, Apollo GraphQL
Databases: MySQL, PostgreSQL, Sequelize, MongoDB, Mongoose. DGaph
Other Tools: NGINX, Vercel & AWS CI/CD, AWS (various services)

Professional Software Experience

Lead Software Engineer, CyberRisk Alliance, LLC   6/2022 - 7/2023
NextJS | TypeScript | Hooks | GraphQL | StorybookJS | Auth0 | AWS | ReactBootstrap | WordPress | PHP
- Managed a team of twelve software engineers maintaining fourteen headless **WordPress** sites
- Developed web applications using **NextJS/TypeScript/React-Bootstrap** and **StorybookJS** with a headless **WordPress** back-end
- Practiced **AGILE** methodology to improve development and release cycles
- Implemented and managed a Help Desk integrated with Monday.com, YouTrack and Microsoft Outlook to process and track bug reports and new feature requests
- Collaborated with senior leadership to provided technology, design and content strategy to improve websites

Co-Founder, Product & Software Engineer, Charla Technologies, Inc.   7/2021 - 12/2022
NextJS | Hooks | Apollo GraphQL | DGraph | OAuth2.0 | AWS | Tailwind CSS | Slack API | Golang
- Translated customer requests into a modern fast UI/UX using **NextJS/Tailwind CSS/Material UI**
- Compiled disparate social media data from several sources and created a custom analytics SaaS platform following a microservices architecture using **DGraph/Lambda/NodeJS/Golang**
- Designed back-end **GraphQL** schema for relational data of thousands of users & millions of messages
- Refactored back-end **JavaScript** to **TypeScript** to improve error handling and code readability
- Assisted in setup of **CI/CD AWS CodePipelines** for **EC2 Auto Scaling Groups, Lambda & Amplify**
- Product roadmap planning, conceptualizing, budgeting, and assisting in the debugging process
- Followed **AGILE** methodology enabling a faster and more flexible development environment

---

PM & Full Stack Software Engineer, Blue Ocean, - Secure Your Vote   Capstone Project Link
NextJS | ExpressJS | MongoDB | Hooks | OAuth | TailwindCSS | GoogleCivicAPI | HereAPI
- Designed front-end UI/UX using **NextJS/Tailwind CSS**
- Pulled election info using **GoogleCivicAPI** and enabled secure voting using **OAuth**
- Increased security by implementing several validation barriers with the **HereAPI**
- Styled the app using **Tailwind CSS** and implemented specific confetti animation requested by client
- Implemented a React-USA map that routed users to state specific pages creating a sticky UXD

Education
Full Stack Software Engineer - Hack Reactor, Software Engineering Immersive, Remote 2021
Bachelor of Science, Mechanical Engineering, State University of New York, Buffalo, NY 2007
